Quantum Consciousness ~ Journey's into Alternative Realities, Parallel Lives and Other Dimensions

Peter is the Founder of the **Institute for Quantum Consciousness**. For the past several years, he has been researching other realms of consciousness and designing experiences that bridge the gap between this and other realities. He has presented his research, both, in Australia and overseas, and his findings were published in his last book;- '*Quantum Consciousness - Expanding your Personal Universe*'. Peter has also been President of The Michael Newton Institute for Life Between Lives in the US, since 2009.

He has assisted hundreds of people retrieve their soul based memories from the interlife between incarnations.

Peter will share case studies of journeys into other realms of consciousness. The blending of expanded states of awareness with some of the basic principles of Quantum Physics, can show us that the veil between realities is thinner than we realise.

The Evenings' Presentation will Focus on;

- *Background to the Philosophies and Models behind the Quantum Consciousness Experience.*
- *Most Recent Case Studies from other Realms of Consciousness, Focusing on Interdimensional Consciousness.*
- *Peter will Describe his New Research Direction;- "Universal Consciousness".*
- *A Short Tribute to Dr. Michael Newton – Founder of the 'Life between Lives Hypnotherapy', who passed in late 2016.*
