### Ecological Gardening ~ Working in Harmony with the Living Planet

Angelo is a Presenter, Trainer and Writer in the areas of Sustainable Gardening and Permaculture with a background in the biomedical sciences. He has worked as a Horticulturist in the garden nursery industry over the last 10 years, writes for a major gardening magazine, has a demonstration food forest garden in Melbourne's inner suburbs and runs the educational website, **Deep Green Permaculture**.

He is also a Shamanic Healer and his work is centred around helping people connect to their inner essence and to that of Nature in order to find balance, harmony and purpose. With almost two decades of experience as a Reiki Teacher and Practitioner and even longer as a Dream Analyst.

Nature is a living ecosystem where all things exist in a state of balance and harmony. By understanding how natural systems and the web of life function, we can align our efforts to work co-operatively with nature, meshing in with natural cycles and system, and emulating the patterns inherent in nature in order to create sustainable ornamental and food gardens in whatever space we have.

The Evenings' Presentation will Focus on;
