

Alternative Science & Technology Research Organisation

Victoria, Australia

*is proud to present*

**Brian Bayliss**

*to speak on*

## **‘Plasma Conversion of Energy from Water’- Other Alternatives!**

Brian, worked in the Defense Aircraft Industry in the UK from 1955 to 1965. He is qualified in Audio, Electrical and Industrial Electronics and worked as an Electrical/Electronic Technician in Heavy Industry for many years. In 1990, he started research into alternative energy systems using water.

People from all over the world have been working on ways to use water as an alternative energy source or fuel. Much progress has been made in this area and the timing now appears right for some of these technologies to come into mass use. Brian believes that, if successful, the R&D and projects he has been working on could have a significant impact on the power industry. However, he feels that there are those with vested interests who may try to find ways to stop its progress.

The Evenings' Presentation will also focus on;

- *A Brief Explanation of Brian's Project.*
  - *Video Clips of Tests Conducted.*
- *Murphy's Law of Intervention – What Can Happen When Things Go Wrong.*
  - *What Next?*
  - *Alternatives and Some Views.*

**A Very Interesting and Informative Evening, Not to be Missed!  
See You There!!**

**Monday, 15<sup>th</sup> of March, 2010**

**7:45 p.m.**

***Members - \$5.00***

***Non Members - \$10.00***

**Balwyn Library, 336 Whitehorse Road, Balwyn**

*Tea/Coffee/Herbal Tea with Biscuits provided*
