

ASTRO Networks Victoria Inc.

is proud to present

Brian Bayliss

to speak on

Exploring the Ways to Change the Format of Electric Motors & Power Generation

Brian, worked in the Defence Aircraft Industry in the UK from 1955 to 1965. He is qualified in Audio, Electrical and Industrial Electronics and worked as an Electrical/Electronic Technician in Heavy Industry for many years. In 1990, he started research into alternative energy systems using water.

Brian will show how very little has changed in Electric Motor development. He wants to try and encourage motor manufactures to look at a different style and format of electric motors. Why they are not addressing the fact that there are still a large amount of losses that exist in all standard motor designs and how reducing these losses would improve their performance.

The Evenings' Presentation will also focus on;

- *Standard Motor Format.*
- *Permanent Magnet Format.*
- *Some Changes to the Above.*
- *Brian's View of Why Wind and Solar Are Not Very Useful for Base Load Power Generation.*
- *Why We Cannot Shut Down Hazelwood at the Moment, and How it Could Continue.*

**A Very Interesting and Informative Evening, Not to be Missed!
See You There!!**

Monday, 20th of June, 2011

7:45 p.m.

Members - \$5.00

Non Members - \$10.00

Balwyn Library, 336 Whitehorse Road, Balwyn

Tea/Coffee/Herbal Tea with Biscuits provided
