

ASTRO Networks Victoria Inc.

is proud to present

Thomas Watson

to speak on

Is Carbon Dioxide Responsible for Climate Change?

Thomas, an Inventor, Researcher and Author comes from a family of Inventors. He has written two books. His interests in magnetism and the magnetic effects related to gravity were first kindled when he saw a UFO over Ballarat in 1991. He has designed and built magnetic motors which are 98% efficient and has used his knowledge to further research the atomic nature of magnetism. In 2012, achieved acceptance into Worldwide Who's Who, and accomplished two journal papers with Dr. Alberto Boretti of the University of Ballarat.

Thomas wants to show and prove how Carbon Dioxide is produced naturally and that it is a HEAVY gas that cannot rise more than 3.54 feet above the site where it is stored or in still air conditions, and that Gravity is the result of the association between the Electron Mass Diameter to its Nucleus Mass Diameter for all 103 natural elements of nature.

The Evenings' Presentation will also focus on;

- *Showing How the Accepted Laws of Magnetism were Originally Created.*
- *To Show How the Interpretation was Accepted and Should have Been Observed Differently.*
- *To Show How the Mathematics of Establishing each Element's Magnetic Evaluation now Known as the gravitywatson value (gw) and Applying this Accuracy to show how these Values are directly Connected to the Accepted Gravity Values of m/s/s and the like.*
- *Showing How our Earth is Interacting to the Emissions from the Sun's Heliosphere, and how our Earth is Reacting to this Changed Environment that changes Barometric Pressures proving that Carbon Dioxide has had no Influence in the changing of Earth's Climate.*
- *Showing how the BOM made the Gross Error of Judgement, Establishing the Original Situation of the Fire which Devastated the Victorian Bush Lands on the 7th of February, 2009.*
- *Fully Understand How the Effects of the Sun's Magnetic Heliosphere Magnetic Field Emissions Enter and React to change our Seasons on Earth, changing our Climate and How these Reactive Forces change the Barometric Forces within our Atmosphere, which have changed our Seasonal Cycles by 150 days.*

**A Very Interesting and Informative Evening, Not to be Missed!
See You There!!**

Monday, 10th of September, 2012

7:45 p.m.

Members - \$5.00

Non Members - \$10.00

Balwyn Library, 336 Whitehorse Road, Balwyn

Tea/Coffee/Herbal Tea with Biscuits provided

For more information about this and other ASTRO events contact Sergio or Josephine on
(03) 9857 8719 (AH) or write to; PO Box 4032, Balwyn, Vic., 3103
