Pleaidians Guidelines on How to Improve Your Life

When Athol was young, two different types of extraterrestrials took him into their vehicles. The first type were the greys that abducted him against his will. The second type were benevolent, friendly, loving and invited him to go with them. He calls the second type the 'Blues', commonly known as Pleiadians.

You may remember the fascinating presentation Athol gave a few months ago about his experiences. He has been instructed by the Pleadians to share their communications, techniques and a detailed three step process on how to be happier, healthier, more successful and to manifest what you really need. According to Athol, most of us know we need to raise our consciousness and open our hearts in readiness for new levels of cosmic energy change but many of us may not know how to do this. It involves learning how to overcome the negative things that have been holding us back in life. This is not just for people who believe in UFO's but it is a down to earth process that will help anyone to become successful and happier in life.

The Evenings' Presentation will Focus on;

- *A Quick Overview of being taken by Aliens for those who Missed his Earlier Talk.*
 - *What He Was Told about Humans and Raising our Consciousness.*
 - *Working Through "Centres for Change" where People Support Each Other.*
- *The Process of Overcoming Old Beliefs and Negative Thoughts that Have Been Holding People Back.*
 - *Details of a Workshop the Pleaidians have Provided to Help People to Transform.*

**A Very Interesting and Informative Evening, Not to be Missed!
See You There!!**
