## **‘Memoirs of My Extraterrestrial Journey’**

Brenda has been facilitating an Alien Abduction Support group for 20 years. Over the years, the group has explored techniques of protection and methods to stop abduction. Some have chosen to explore some memories and others have decided not to. Many of the people who have come to the group have become close friends. Hypnosis is always available for any person having experiences who feel up to exploring memories of their experiences.

Brenda has extensively explored many therapies personally to help to retrieve memory of her own abductions and other life experiences. At the age of 9, she began studying yoga, deep relaxation and yogic breathing. This passion continued into adult life, and she trained to become a qualified Yoga teacher. She has always had a passion for learning new things, and became a ‘Touch For Health’ Instructor and a qualified Clinical Hypnotherapist. Studied and practised rebirthing with several well known Rebirthers and used these techniques on a daily basis for 6 years. She continues to use any and all of these techniques when needed.

Brenda believes we are all on an incredible journey. Each person’s journey is unique and personal to them, while being absolutely essential and important to all of us. Although we appear separate, we are not, we are a part of an inseparable whole.
